

# BIKE TO SCHOOL DAY

Wednesday, May 5, 2021

Join children + adults around the nation to celebrate the benefits of bicycling and walking

## USE YOUR HEAD

Wearing a helmet is the single most effective way to reduce head injury from bicycle crashes.

## GET IT RIGHT

Ride on the right side of the road, use appropriate hand signals and respect traffic markers.

## SHINE BRIGHT

Use lights or reflectors to help remain visible to motorists and other bikers.

## WATCH OUT

Parents should actively supervise children until they are responsible enough to ride alone.
